

In this user guide we will demonstrate how to create a bookmark in a Samsung Android Device.

- 1) Open a browser on the Samsung Android Device.
- 2) Type in the URL address: <https://wealth.emaplan.com/ema/ria/clearfinancialadvisors> Click **Go**.

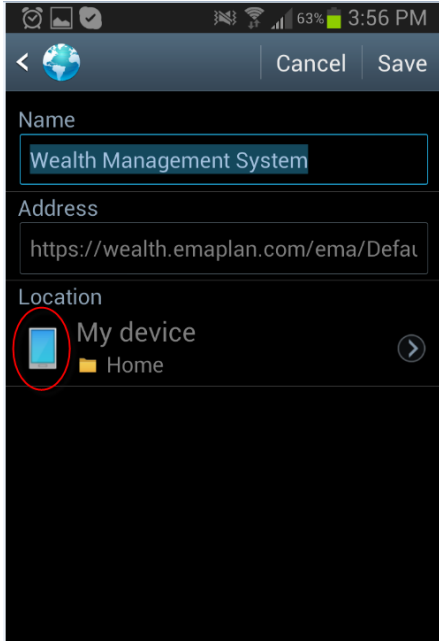

- 3) Choose Bookmarks. Click the “+” (plus) sign. Rename the bookmark as desired, then click **SAVE**.

- 4) A bookmarked icon of this page will now appear under the **“My Device”** category. Press and hold this icon until a menu appears.

1.

- 5) Select **“Add shortcut to home screen.”**

- 6) The icon logo should now appear on the home page.
